#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Organization and Nature of Operations**

Allen, Mooney & Barnes Brokerage Services, LLC (the "Company") is a registered broker-dealer with the Securities and Exchange Commission (SEC), the Financial Industry Regulatory Authority (FINRA), the Securities Investor Protection Corporation (SIPC), and in thirty-five U.S. states. It has branch or affiliate offices in Thomasville and Saint Simons Island, Georgia; and Charleston, South Carolina. It is a limited liability company (formed in Georgia) that is wholly owned by FAIM Investments, LLC (FAIM). The Company was approved by the SEC and FINRA on March 29, 2007. The Company does not hold funds or securities for, or owe funds or securities to, customers. Any funds or securities received by the Company are promptly transmitted to its clearing broker, Wells Fargo Advisors, LLC, formerly First Clearing, LLC.

The accounting principles followed by the Company and the method of applying those principles conform with generally accepted accounting principles and to general practice within the securities dealers industry.

#### Cash and Cash Equivalents

Cash includes amounts in checking and money market accounts at commercial banks. The balances of these accounts, from time to time, exceed the federally insured limits. At December 31, 2018 the Company's uninsured cash balance totaled \$196,089. Management believes it is not exposed to any significant credit risk on these accounts. The Company considers all highly liquid temporary cash instruments with a maturity of three months or less to be cash equivalents.

Cash includes a \$100,000 clearing deposit held by its clearing agent, Wells Fargo Advisors, LLC. These funds are held by the clearing agent as agreed to in Fully Disclosed Clearing and PAIB (proprietary account of an introducing broker/dealer) Agreements. The assets in this account are allowable assets in the firm's net capital computations.

#### **Receivables**

Receivables include commissions that are amounts due for securities trades from the Company's clearing broker-dealer and consulting charges from investment banking clients. An allowance for uncollectible accounts (of \$92,595) has been established for the investment banking revenue receivable. Management's best judgement as to the collectability of the accounts receivable was used in determining the amount of the allowance. No allowance was deemed necessary for the commissions receivable because these receivables are all current and collected after year end.

Accounts receivable includes invoices due from one customer that constitutes 55% of the total amounts receivable at December 31, 2018.

#### **Revenue Recognition**

The Company prepares its financial statements on the accrual basis of accounting. Revenue is comprised of:

- Brokerage Commissions. The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchase is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.
- Investment Banking Consulting Fees. The Company receives retainer fees, which are recognized when billed to clients, almost exclusively on a monthly basis.
- Investment Banking Sale Transaction Fees. The Company records sale transaction fees when the client enters into an agreement regarding a sale transaction and the sale transaction closing occurs.
- Annuities, Annuity Trails and Insurance Commissions. The Company receives annuity contract commissions, trails and insurance commission related to its customers. The commissions and trails are recorded when received, since that is when the amount is determinable and earned.
- Mutual Fund Trails. The Company receives trails from the sale of mutual funds related to its customers. The trails are recorded when received, since that is when the amount is determinable and earned.
- Payout on Cash and Margin Balances. The Company receives a payout monthly for cash and margin balance
  held with the clearing firm and banks. The revenue is recognized when received, since that is when the
  amount is determinable and earned.
- Postage Charge Net Revenue. The Company receives revenue from charges to clients for processing of trade
  confirmations. The clearing firm reports and pays these fees to the Company monthly through the monthly
  settlement statement. The revenue is recognized when received, since that is when the amount is
  determinable and earned.
- Other Income. The Company receives incentive revenue for asset growth from the clearing firm. The revenue is recognized when received, since that is when the amount is determinable and earned.
- Unrealized Gain(Loss) on Securities. The Company records the unrealized gain/loss on securities based on the
  monthly end of month fair value. The revenue is recognized monthly based on appraisal of holdings.
- Interest and Dividend Income. The Company receives interest income monthly on money market accounts and dividend income quarterly on the securities owned. The revenue is recorded when the interest and dividends are received.

Revenue related to two of the Company's customers represented 60% of gross revenue for 2018.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **Accounting Pronouncements**

In March 2016, April 2016, and December 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net)", ("ASU 2016-08"), ASU 2016-10, "Revenue from Contracts with Customers - Identifying Performance Obligations and Licensing", ("ASU 2016-10"), and ASU 2016-20, "Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers", ("ASU 2016-20") respectively, which further clarify the guidance for those specific topics within ASU 2014-09. In May 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers - Narrow Scope Improvements and Practical Expedients", to reduce the risk of diversity in practice for certain aspects in ASU 2014-09, including collectability, noncash consideration, presentation of sales tax and transition. These updates permit the use of either the retrospective or cumulative effect transition method. Early application is permitted as of the original effective date for annual reporting periods beginning after December 15, 2018, including interim reporting periods within that reporting period. Based on current estimates, we do not expect these provisions of the ASUs to have a material impact on our financial statements. The Company is continuing to evaluate which transition approach it will utilize and the impact these standards will have on our financial statements upon adoption.

In February 2016, the FASB issued accounting standard update ("ASU") No. 2016-02, "Leases (Topic 842)", ("ASU 2016-02"). This ASU requires that an entity should recognize assets and liabilities for leases with a maximum possible term of more than 12 months. A lessee would recognize a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the leased asset (the underlying asset) for the lease term. This guidance also provides accounting updates with respect to lessor accounting under a lease arrangement. This new lease guidance is effective for fiscal years beginning after December 15, 2018. Entities have the option of using either a full retrospective or a modified approach (cumulative effect adjustment in period of adoption) to adopt the new guidance. Early adoption is permitted for all entities. We are currently evaluating the impact of the adoption of this guidance in our financial statements.

#### 2. SECURITIES AND FAIR VALUE MEASUREMENTS

Securities consist of 3,550 shares of Thomasville Bancshares, Inc. They are carried at their fair value of \$138,450 as determined by reference to quoted market prices in active markets for identical assets (Level 2 within the fair value hierarchy established by financial accounting standards). The shares cost \$50,567.

The Company measures its financial assets and liabilities in accordance with generally accepted accounting procedures. For certain financial instruments, including cash, accounts receivable and accounts payable, the carrying amounts approximate fair value due to their short maturities.

We adopted accounting guidance for financial and non-financial assets and liabilities (ASC 820). This standard defines fair value, provides guidance for measuring fair value and requires certain disclosures. This standard does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. This guidance does not apply to measurements related to share-based payments. This guidance discusses valuation techniques, such as the market approach, (comparable market prices), and income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The guidance utilizes a fair value hierarchy that prioritizes

the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include
  quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar
  assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

The following table presents certain assets of the Company's measured and recorded at fair value on the Company's balance sheet on a recurring basis and their level within the fair value hierarchy as of December 31, 2018.

	Total	(Level 1)	(Level 2)	(Level 3)
Fair-value - securities	\$ 138,450	\$ -	\$ 138,450	\$ -
Total Assets measured at fair value	\$ 138,450	\$ -	\$ 138,450	\$ -

The following is a reconciliation of the Level 2 Assets:

Beginning Balance as of December 31, 2017	\$ 112,000
Stock Purchase	29,250
Unrealized Loss on (level 2) investments December 31, 2018	(2,800)
Ending Balance as of December 31, 2018	\$ 138,450

#### 3. NET CAPITAL REQUIREMENTS

The Company is a registered broker-dealer that may transact more than ten transactions for its own account(s) in one calendar year and is therefore subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of a minimum net capital of 6 2/3% of aggregate indebtedness, as defined, or the minimum dollar amount of \$100,000 whichever is greater, as of December 31, 2018. The Company has Net Capital of \$496,993 which was \$396,993 in excess of its required Net Capital, and an aggregate indebtedness to Net Capital ratio of 32.06%.

#### 4. INCOME TAXES

The Company is included in the consolidated income tax returns filed by the parent company, FAIM Investments, LLC. As a limited liability company, taxable income or loss flows through to the members on their individual tax returns rather than at the corporate level. The tax returns of the parent company for the years ending in 2018, 2017, and 2016 are subject to examination by the Internal Revenue Service and state taxing authorities, generally for three years after they are filed.

#### 5. PROPERTY AND EQUIPMENT

Equipment consists of laptop computers, furniture and office equipment. The computers, furniture and office equipment are being depreciated on a 5-year straight-line basis. Fixed asset purchased was \$4,065 for the year ended December 31, 2018. Accumulated depreciation at December 31, 2018 was \$3,928. Total depreciation expense for the year ended December 31, 2018 was \$2,167.

#### 6. RELATED PARTY TRANSACTIONS

The Company and Allen, Mooney & Barnes Investment Advisors, LLC (AMBIA), which is also wholly owned by FAIM Investments, LLC, have an expense sharing agreement for the year 2018. The agreement requires the Company to reimburse AMBIA for its share of management and administrative services on a monthly basis. The cost is recalculated quarterly based on the actual costs incurred for the prior three months. The services provided by AMBIA include payroll, professional fees, information services, occupancy expenses, advertising, travel, and general office expenses. The total paid for these services in 2018 was \$1,705,734.

The Company's clearing agent, Wells Fargo Advisors, LLC, also provides investment services to AMBIA. As of year-end, AMBIA owed the Company \$3,828 for transaction fees and information services that were charged through the clearing agent.

AMB Professional Group, LLC (AMB Pros), which is also wholly owned by FAIM Investments, LLC, owed the Company for legal fees. As of December 31, 2018, AMB Pros owed the Company \$33,469. This amount was paid in full during the first quarter of 2019.

#### 7. CONTINGENCIES

The Company and its related companies are periodically subject to claims and lawsuits arising in the ordinary course of business. While it is not possible to predict with certainty the outcome of legal matters, management is of the opinion that these matters will not have a material impact on its financial condition or results of operations.

#### 8. SUBSEQUENT EVENTS

In preparing these financial statements, the Company evaluated events and transactions for potential recognition or disclosure through February 27, 2019, the date the financial statements were available to be issued.

On February 22, 2019, the Company made a distribution to its parent company, FAIM Investments, LLC, in the amount of \$350,000.
